IPAC INFORMATION SESSION NIGHT

On Wednesday May 15th at 7:00 pm our Families & Friends are invited to come meet with Stan Andrews - IPAC Lead.

Stan will be set up in the Main Activity Area of the home. He will provide demonstrations of some of our testing tools, information on our tracking and provide lots of opportunity for loved ones to ask any questions..

Hope to see you there!

Southbridge Cornwall Welcomes Jonathan Lafleche as Director of Clinical Services

My name is Jonathan Lafleche, I grew up in Casselman with one younger brother and one older sister, but I have been living in Cornwall for the last 7 years with my wife who is also a Paramedic, however she is currently completing her master's of psychotherapy in which she is excited to start her new career/challenge. Together, we have a young daughter that we have named Alice, she will be 2 years old very soon, and she is undeniably our little ray of sunshine. After working as a lifeguard during my high school years, I realized that healthcare was the right path for me and I became a Paramedic and later became an Advanced Care Paramedic and have worked in Cornwall and currently working in Prescott-Russell. I realized right before the pandemic that I needed a new challenge in which was to become a Registered Nurse, I completed my degree with Laurentian University/St Lawrence College in Cornwall. As a Registered Nurse, I have worked and gained experience at Revera Heartwood long term care. During my degree, I have also gained experience as a Personal Support Worker at Sandfield place, and at the Eastern Ontario Health Unit as a student nurse. During the last year of my nursing degree, I focused my consolidation in Palliative Care at the Cornwall Hospice and in Critical Care at the Cornwall Community Hospital critical care unit. I am beyond excited to start this new chapter of my career as the Director of Clinical Services at Southbridge Cornwall. I can not wait to meet all the residents, families and of course all the employees/staff working at Southbridge Cornwall. I enjoy working in a team-based environment, and I understand and take seriously the benefits of interdisciplinary care in order for our residents to have the best possible care and outcome.
